Enova® DGX 8 Enclosure

AVS-ENOVADGX8-ENC (FG1058-08)

Overview

The Enova DGX 8 Enclosure is a Digital Media Matrix Switcher that includes an integrated NetLinx Controller, redundant power supplies and can be populated with Enova DGX video input and output boards in addition to optional audio insert/extract boards. There are four connections per video board, and each enclosure holds two video input boards and two video output boards for a maximum matrix of 8x8.

The Enova DGX 8 is far beyond a modular media switcher with built-in controller - it functions as the centerpiece of a complete integrated solution that manages and distributes analog and digital audio and video including HDMI/HDCP, control and Ethernet. Easily integrate HDCP into system designs and enjoy hassle-free plug-and-play operation. No tools, no delays and no key constraints – it just works with AMX's exclusive InstaGate Pro® Technology. Built for today's and tomorrow's needs, a comprehensive set of Enova DGX hot swappable boards can be used in conjunction with DXLink and DGX Transmitters and Receivers to provide an end-to-end distribution system over twisted pair cable or fiber. An integrated NetLinx Controller and embedded Ethernet switch enables management of the entire solution including source equipment and display devices located throughout the environment – all from a single point of control.

In addition to eliminating HDCP delays, InstaGate Pro allows traditionally key limited sources to be switched freely to all connected HDCP compliant displays – eliminating HDCP key limitations that plague large applications. Built-in SmartScale® Technology on every output provides video that is perfectly scaled for each connected display, eliminating the integration challenges that can occur when sources and displays have different supported resolutions - making it easy to specify, easy to install and easy to use. With the powerful combination of analog-to-digital signal conversion, video scaling and high speed digital switching the system delivers perfect video every time – regardless of signal type.

As part of a complete distribution system, easily send analog or digital audio and video including HDMI with HDCP signals, plus control 10 Km over single mode fiber or 300 meters over multimode fiber; send all this plus power up to 100 meters over standard twisted pair cable to and from the Enova DGX using the DXLink Twisted Pair and Fiber Transmitters/Receivers.

Common Applications
The Enova DGX 8 is ideal for commercial or residential installations requiring the highest quality video to be shared between 8 local or remote AV sources and destinations. Compact form factor allows for installation in locations where space is limited and included redundant power supplies provides for constant uptime for mission critical applications.

Features
- **HDMI/HDCP Switching with Simplicity of Analog** – End-to-end distribution of HDMI/HDCP without interruption or key constraints using InstaGate Pro Technology
- **HDCP Compliance Over Fiber** – Compatible DXLink Fiber boards transmit uncompressed video, including HDCP protected content, up to 10 Km at 10 Gbps (single mode fiber options transmit 10 Km, multimode 300 m)
- **Fiber Your Way** – DXLink Fiber boards are available in single mode or multimode; simplex or duplex
- **AV and Control over Twisted Pair, Fiber or Both** – Send audio, video, bi-directional control and Ethernet over twisted pair or fiber cable, or integrate both into the same system
- **Embedded NetLinx Controller** – Allows any connected device to be managed, monitored and controlled
- **Integrated Ethernet Switch** – Pass Ethernet through the attached DXLink Twisted Pair or Fiber Transmitters and Receivers
- **Analog to Digital Video Conversion with Scaled Outputs** – Converts any source signal to digital and uses SmartScale Technology to automatically output video that is perfectly scaled for each connected display

Key Dealer Benefits
- **HDCP With Simplicity of Analog –** Hassle-free plug-and-play operation eliminates the need for time-consuming, cumbersome work around tools to deal with HDCP key constraints and resolution incompatibilities
- **All-In-One Control and Distribution Solution –** Powerful combination of modular matrix switcher, built-in controller, embedded Ethernet switch and video scaling on every output simplifies the end-to-end distribution and management of audio, video and control throughout multiple rooms
- **Fast Easy Installation –** Leverage pre-existing standard twisted pair infrastructure to distribute high-definition video, audio, control and Ethernet

Key Customer Benefits
- **Picture Perfect –** Prevents degraded video due to incompatibilities between different display resolutions by scaling the video to match each display's preferred resolution using innovative SmartScale Technology
- **Interruption-Free Content –** Exclusive InstaGate Pro Technology allows audio and video to be switched quickly and easily to every connected display without the difficulties typically associated with HDCP
- **Audio, Video and Control Everywhere –** Provides end-to-end distribution of audio, video and control signals throughout a residence or commercial facility over one twisted pair cable

Additional Features
- **InstaGate Pro Technology** – Easily integrate HDCP into system designs and enjoy hassle-free matrix switching to all compliant displays. No tools, no delays, and no key constraints – it just works
- **SmartScale Technology** – Automatically responds to the display's declared EDID information and scales the video to the best resolution and video parameters for that display without manual setup; this prevents inferior video quality when sources are forced to lower resolutions to support the least capable display in the system
- **DXLink Twisted Pair Input and Output Boards** – HDCP Compliant boards send audio, video, control, Ethernet and power over one standard twisted pair cable up to 200m – 100m to the matrix switcher and 100m after the matrix switcher, see the Cabling for Success with DXLink white paper for more details
- **Built-in NetLinx Controller** – Easily program and manage the entire solution including source equipment and display devices located across multiple rooms – all from a single point of control
- **Easily Convert Analog to Digital Signals** – Use the Enova DGX Digital Media Switcher in conjunction with DXLink Multi-Format Transmitters (Twisted Pair or Fiber), and easily integrate legacy analog sources and automatically convert their signals to digital
- **Hot Swappable Video Input / Output Boards** – Easily add or replace I/O boards at any time after deployment - the system automatically recognizes the new configuration and activates the boards

- **Audio Insert / Extract Boards** – Add audio from a local source or extract embedded audio and send to a separate audio system to distribute throughout an environment
- **Fiber Input and Output Boards** – Use in conjunction with DGX Fiber Transmitters and Receivers to send analog and digital audio and video over fiber
- **3D Support** – Pass through latest video formats including 3D and Deep Color
- **Surround Sound Support** – Pass through high definition surround sound including Dolby TrueHD, Dolby Digital, DTS-HD Master Audio, DTS, and 2-channel through 8-channel L-PCM
- **High Speed Digital Switching** – 12.8 Gbps ensures perfect pixel for pixel reproduction of video
- **Fully Redundant Power Supplies with Independent Power Paths** – Ensures maximum reliability for applications that require 24/7 uptime

Specifications

GENERAL	
Supported Signal Styles/Compatible Input and Output Boards	For audio, video and transport specifications please see the data sheets for Enova DGX compatible Input / Output Boards: •AVS-ENOVADGX32-VI-HDMI, Enova DGX HDMI Input Board (FG1058-540) •AVS-ENOVADGX32-VO-HDMI, Enova DGX HDMI Output Board (FG1058-550) •AVS-ENOVADGX32-VI-DVI, Enova DGX DVI Input Board (FG1058-600) •AVS-ENOVADGX32-VO-DVI, Enova DGX DVI Output Board (FG1058-610) •AVS-ENOVADGX32-VI-DXLINK, Enova DGX DXLink Twisted Pair Input Board (FG1058-570) •AVS-ENOVADGX32-VO-DXLINK, Enova DGX DXLink Twisted Pair Output Board (FG1058-580) •AVS-ENOVADGX32-AUD-INS-EXT, Enova DGX Audio Insert / Extract Board (FG1058-700) •ENOVADGX-VI-DXLINK-MMF-D, Enova DGX DXLink Multimode Fiber Input Board, Duplex (FG1058-622) •ENOVADGX-VO-DXLINK-MMF-D, Enova DGX DXLink Multimode Fiber Output Board, Duplex (FG1058-632) •ENOVADGX-VI-DXLINK-MMF-S, Enova DGX DXLink Multimode Fiber Input Board, Simplex (FG1058-623) •ENOVADGX-VO-DXLINK-MMF-S, Enova DGX DXLink Multimode Fiber Output Board, Simplex (FG1058-633) •ENOVADGX-VI-DXLINK-SMF-D, Enova DGX DXLink Single Mode Fiber Input Board, Duplex (FG1058-620) •ENOVADGX-VO-DXLINK-SMF-D, Enova DGX DXLink Single Mode Fiber Output Board, Duplex (FG1058-630) •ENOVADGX-VI-DXLINK-SMF-S, Enova DGX DXLink Single Mode Fiber Input Board, Simplex (FG1058-621) •ENOVADGX-VO-DXLINK-SMF-S, Enova DGX DXLink Single Mode Fiber Output Board, Simplex (FG1058-631) •AVS-ENOVADGX32-AUD-INS-EXT, Enova DGX Audio Insert / Extract Board (FG1058-700) Note: Use fiber duplex models for bidirectional control over fiber. Simplex models do not support control transport over fiber; although when used as part of a complete Enova DGX solution, control can be provided if a supplemental independent network connection is used. See the "Instruction Manual – Enova DGX Digital

Dimensions (HWD)	6 13/16" x 19" x 15" (17.4 cm x 48.3 cm x 38 cm)
Dimensions (HWD) with Extractors	6 13/16" x 19" x 16" (17.4 cm x 48.3 cm x 40.6 cm)
Units	4
Weight	Approximately 35 lbs (15.9 kg) per loaded enclosure
Shipping Weight	Approximately 45 lbs (20.4 kg) per loaded enclosure
MTBF	168,000 hours
Per Channel Aggregate Data Rate (Max)	12.8 Gbps
Noise Level	< 52.5 dBA @ 1m (Typical @ 25°C)
Airflow	Forced Air (inlet on side, exhaust on side)
Approvals	CE EN 55022, EN 55024 and EN 60950-1 FCC Class A UL 60950-1 cUL RoHS / WEEE compliant IEC 60950-1
Recommended Accessories	•EXB-IRS4 ICSLan IR/S Interface, 4 IR/S and 4 Inputs (FG2100-23) •EXB-COM2 ICSLan Serial Interface, 2 Ports (FG2100-22) •EXB-REL8 ICSLan Relay Interface, 8 Channels (FG2100-20) •EXB-I/O8 ICSLan Input/Output Interface, 8 Channels (FG2100-21) •EXB-MP1 ICSLan Multi-Port, 1 COM, 1 IR/S, 2 I/O, 1 IR RX (FG2100-26) •CBL-HDMI-FL HDMI High Speed Flat Cable with RedMere Technology (FG10-2180-16) •CBL-RGB+A-FL RGB with Audio Flat Cable (FG10-2183-16) Note: Compatible boards are listed above under "supported signal styles/compatible input and output boards". Transmitter and receiver compatibility is dependent on board selection, please see the data sheet for the selected board for compatible transmitters and receivers.

ACTIVE POWER REQUIREMENTS	
AC Power	100-240 VAC single phase, 50-60 Hz
Power Consumption (Max)	977 Watts, with redundancy 1954 Watts, without redundancy
Power Consumption (Typ)	145 Watts, fully loaded HDMI enclosure with redundancy
Power Consumption w/DXLink Twisted Pair Power (Typ)	415 Watts, fully loaded DXLink Power enclosure without redundancy Use the Enova DGX Configuration Tool located at AMX.com/enova to determine the power requirements of a configuration and whether any of the DXLink Twisted Pair Transmitters or Receivers should be powered with the local power supply to maintain PS redundancy in the Enova enclosure
Power Factor Correction	Supported, complies with EN60555-2 and EN61000-3-2

USB (HID) KEYBOARD & MOUSE	
USB (HID)	Use the Enova DGX Digital Media Switcher in conjunction with DXLink Transmitters and Receivers (twisted pair and/or fiber), connect a DXLink Transmitter to a PC and a DXLink Receiver to a

	keyboard and mouse, the system then emulates commands from the receiver back to the PC

ENVIRONMENTAL	
Heat Dissipation (Max)	3334 BTU/hr, with redundancy 6667 BTU/hr, without redundancy
Heat Dissipation (Typ)	495 BTU/hr, fully loaded enclosure with redundancy
Heat Dissipation w/DXLink Twisted Pair Power (Typ)	1416 BTU/hr, fully loaded DXLink Power enclosure without redundancy
Humidity (Operating)	5% to 85% RH (non-condensing)
Humidity (Storage)	0% to 90% RH (non-condensing)
Temperature (Operating)	32° to 104° F (0° to 40° C)
Temperature (Storage)	-22° to +158° F (-30° to +70° C)

| INTEGRATED CONTROLLER	
LAN/Ethernet Port	RJ-45, NetLinx On Board Master is an NI-3100 Class Controller TCP/IP Uplink Port (LAN 10/100/1000) Supports up to 64-Port Unmanaged 10/100 Ethernet Switch (Cascaded architecture actual throughput dependent on loading. Worst case per port throughput 10 Mbps, best case 100 Mbps when used with 8 DXLink Transmitters and 8 DXLink Receivers) Static IP or DHCP/DNS, SSL, Auto-negotiating, Half/Full duplex, Auto MDI/MDI-X Cross-Over TCP/IP, UDP/IP, CIP, SMTP, SNMP, Built-in Web server Includes support for DXLink Devices
Processor	CPU 404 MIPS PowerPC
Memory	SDRAM 256 MB NVRAM 1 MB Flash 2 GB
Program Port (USB)	USB Mini-AB (used for NetLinx Studio control)

| ENCLOSURE CONTROL	
Control Port (Serial)	Bidirectional RS-232 Baud Rates of 9600 (default), 19200, 38400, 57600 DB-9 Connector
Control Port (USB)	USB Mini-B

For a detailed PDF or DXF pictorial drawing please visit: http://www.amx.com/products/AVS-ENOVADGX8-ENC.asp

For audio, video and signal transport specifications please see compatible input / output board data sheets:
